Vantage Point Title Selects Pavaso for Digital Closings

End-to-end eClosing platform will enable title agents to simplify closing process

Plano, TX, September XX, 2018-- [Pavaso](#), developer of the mortgage industry's first end-to-end digital closing platform, announced Vantage Point Title, a nationwide provider of title and escrow services, has selected the Pavaso Platform to enable its title agents to conduct digital closings on behalf of homebuyers.

Based in Clearwater, Florida, Vantage Point Title specializes in designing and building customized services for every client. By leveraging Pavaso's digital closing solution, Vantage Point title agents will be able to collaborate with other stakeholders to create a streamlined eClosing process.

"Vantage Point is excited to partner with Pavaso, who is a leader in eClosing technology," said Robert Jackson, president and CEO of Vantage Point. "We have been looking for an eClosing solution for nearly 15 years that would meet all of our concerns in the title/settlement world. Through Pavaso's innovative platform, we have found that partner. We are confident that our partnership will prepare us for the new digital settlement solution needed for this ever-changing industry."

The Pavaso Platform is the only closing solution that connects all stakeholders in one location, providing an unmatched level of collaboration and process management. Lenders and title agents use Pavaso to collaborate, review closing documents and access all the tools needed to conduct digital closings, including remote online notarizations.

"We are proud to add Vantage Point to our title partner network," said Mark McElroy, CEO, Pavaso. "We look forward to helping Vantage Point agents provide their clients with a more convenient, streamlined and efficient closing."

As of August 2018, more than half of all eNote closings registered on the MERS® e-registry had been closed through Pavaso's Digital Close Enterprise tool. Digital Close Enterprise enables lenders and title agents to communicate, securely exchange data and create fully electronic mortgages while providing borrowers with a much faster and more transparent closing process.

Plano, Texas-based Pavaso is transforming the mortgage process with radically innovative digital mortgage closing technology facilitating fast, consistent, accurate and compliant closings every time. Pavaso offers a single, collaborative, secure portal promoting transparency, efficiency, consumer education and communication in a seamless format delivering value to every stakeholder involved in the transaction.
